Dear

Re: CTA(P) Written Exam No:

Thank you for agreeing to mark this exam. We would like to bring to your attention that the candidate in question is dyslexic. A formal diagnosis has been obtained.

We therefore request that you bear this in mind when marking their exam. They should not be marked down for spelling, grammar or structure cohesion. The errors mentioned above reflect aspects of dyslexia itself and have no bearing on the candidate's competence as a psychotherapist.

If you need any further clarification, please contact me.

With warm wishes

UKATA CTA(P) Written Exam coordinator.
